

## Township Zoning Proposed By Centerville Chamber

In an endeavor to prevent what was termed "damage" to this area through the unplanned and improper use of land, the Centerville Chamber of Commerce on Wednesday reactivated its two-year-old plan to zone that community.

The proposal was introduced by Col Eugene Manning, Chamber secretary, who stated, "In a great many instances it is too late to prevent considerable damage which has already been done, but by zoning soon it will be possible to prevent a continuation of this practice."

He cited as examples the gravel companies which are destroying potential residential areas by their excavations, and the nearby asphalt-mixing plants which blanket the area with their black tar-laden smoke.

### PLANNED GROWTH

Manning expressed belief that the zoning project should be taken up on a township-wide basis to protect the area against unplanned growth.

Chamber members backed his proposal by recommending that it be brought to the attention of the Township Chamber of Commerce. They stated, however, that the Centerville Chamber should continue its own campaign for the zoning of that community.

Lee Williams, owner of a new residential tract on Main Street, pointed out that the Chamber had originally announced plans for zoning two years ago and had requested the engineers of the Alameda County Planning Commission to draw up maps of tentative zones for the community.

"It think it is probable that those maps have been prepared and further progress has been delayed pending the action of the Chamber," Williams said.

### INVITE ENGINEER

There being no objection to the plan to take immediate action on the zoning plan, Secretary Manning was instructed to write to Engineer John Thomas asking if he would meet with the Chamber at his earliest convenience.

President Edgar Van Scoy announced that he would appoint a committee to follow through on the proposal to assure the speediest possible action.

## CARPENTERS STRIKE MAY HALT BUILDING

The bulk of construction in this area may be halted temporarily if the threatened strike of union carpenters materializes.

Involved in the current wage dispute are 1,500 carpenters currently working in Southern Alameda County.

The carpenters have asked for a 27 cents per hour increase to bring their hourly wage to \$2.50. The employers offered a three-year contract calling for a 10 cent per hour raise the first year and a seven and a half cent an hour boost the succeeding two years.

The offer was described by Frank G. Corker, manager of the Central California Chapter of the Associated General Contractors, as "as far as we can go in wages."

The offer was turned down by the carpenters union.

## SCHOOL BOARD ACCEPTS SUMMER RECREATION PLAN

Niles will have a summer recreation program for school children, it was decided Wednesday evening by the board of trustees of the Niles School District.

Meeting to consider the budget for the next fiscal year, which starts in July, the board decided upon an allocation of \$500 to cover the salary of a supervisor of the program.

Suggestion for a summer recreation program came from the Niles Chamber of Commerce. A committee of the Chamber, consisting of John Brahmst, Clifford Dennis and L. R. Bateman met with the school board to present the request.

"We recognize the need for a summer program for children," stated H. L. Scott, clerk of the school board. "Circumstances are changing rapidly, with increasing employment of children. The board will do everything it can to employ the facilities of the school to the advantage of the children."

Members of the Niles school board are H. L. Scott, George Burr and John Cattaneo.

Commenting on the decision of the board, President E. A. Quarlesma of the Niles Chamber of Commerce stated: "The Chamber of Commerce and the entire community of Niles may indeed be thankful that our local school authorities have decided to institute a summer program for children."

If the post of supervisor can be filled by then, the program will start by July 15.

## MYSTERY BLASTS MAY BE JET PLANES

The possibility that the mysterious explosions heard and felt in this area recently may have something to do with jet planes was expressed this week by scientists at Ames Aeronautical Laboratory at Moffett Field.

Five communities of the township were rocked by an explosion at 4:06 p.m. on June 14. Within a few minutes a similar blast was felt at Tracy, and on June 19 a mystery explosion occurred at Milpitas.

The Ames Laboratories announced that a jet plane was performing maneuvers over Tracy at the time the explosion was reported there but denied that the plane was over Washington Township prior to that time.

It was pointed out that the blasts were not a result of the planes dropping anything to the ground. It all has to do with happenings in the mysterious supersonic realm.

It may be that jets in dives and pullouts near the speed of sound generate noises heard on the ground with the force of an explosion, but which the jet pilots themselves do not hear, according to the Ames Laboratories.

And it may also be, the aeronautical scientists say, that explosions on the ground at the same time jets are maneuvering overhead are purely coincidental.

## MAPS OF LITTLE HELP TO STRANGER

What would you do if a stranger should approach you on the street and ask how to locate a certain numbered house on Railroad Avenue in Washington Township?

You might be fortunate enough to hit it right your first guess, or you might encounter the trouble experienced by one helpful localite.

Consulting a map to ascertain the best possible way to direct the stranger, he discovered that there is not one but three Railroad Avenues in Washington Township, each located in a different town and each running in different directions.

The stranger was given his choice of selecting Irvington, Decoto and Warm Springs to begin his search.

## \$65,000 ADDITION ASKED FOR VETERAN MEMORIAL BUILDING

A request for a new \$65,000 addition to the Veterans Memorial Building in Niles is to be filed with the Alameda County Board of Supervisors this week.

The announcement was made by LeRoy Brown, Centerville, past commander of the Washington Township American Legion Post and a member of the building commission.

The proposed new wing would be constructed in what is now the patio and would provide a dining room with a seating capacity of 200 and a meeting room for the Legion Auxiliary.

The Supervisors will be asked to include the project in their 1950-51 budget to be drawn up in July.

The building was formally dedicated on Memorial Day in 1930 as a memorial to the veterans of World War I and was rated as a \$60,000 structure.

## CHARGES PENDING IN HATCHET CASE

An Irvington housewife is in the custody of the sheriff's office this week pending the filing of a charge of assault upon her husband.

Last Sunday morning Mrs. Pudwell screamed to a neighbor that she was afraid that she had killed her husband, Michael, 50, "but I didn't mean to do it."

She said she had hit him on the head with the blunt end of a hatchet. The neighbor, Mrs. Freda Zimmerman, rushed to the apartment to find Pudwell lying on his bed bleeding from a head wound.

Pudwell, a carpenter, told officers he heard his wife moving about shortly after 7 a.m., but told her to go back to bed. He said he had fallen asleep again when he was suddenly struck on the head.

He was taken to Fairmont Hospital for emergency treatment and transferred to Highland Hospital. Mrs. Pudwell was taken to the Alameda County Prison Farm.

Their children, a boy 12 and a girl 3, are being cared for by neighbors.

## BURGLARS TRAPPED BY OFFICERS IN DECOTO POOL HALL

Two Decoto men were trapped by sheriff's deputies inside the business house they were attempting to burglarize in Decoto Wednesday evening. One of the men was struck by a bullet when the pair attempted to flee.

The two men are Ignacio Quiros and Felix Mesa, both described by Detective Richard Condon as "well known to this department for their records."

The arrest was made possible by a local resident who heard noises shortly before midnight in the pool hall owned and operated by Tony Boliba. He immediately notified the sheriff's office in Hayward.

Deputies Erle Smith and Calvin Nutting, patrolling this area, rushed to the business house and guarded the exits until Deputies Jack Abernathy and Vernon Asten and Detective Henry Marks arrived.

The officers spotted the two men inside the building and called to them to surrender. When they attempted to flee out of the back door the officers fired warning shots over their heads and then dropped Mesa with a bullet in the shoulder.

They were taken to the Hayward substation where they are to be charged with burglary.

Entrance to the building had been gained by cutting a screen and prying open a window.

## 10,000 VISITORS AT TOWNSHIP'S NEW COMMUNITY SUNDAY

An estimated 10,000 persons filed through the four model homes in Tareyton Village north of Decoto during the day Sunday, marking the official opening of the complete new \$6,000,000 community in Washington Township.

Company officials announced Monday that 150 homes had been sold on the opening day and said that construction should get underway within the next few weeks.

T. R. Betchel, president of the building company which bears his name, said that the 607 homes to be constructed in the Village will house a population of approximately 2,000 persons when they are completed in the late fall.

According to present plans two square blocks, facing on the Hayward-Niles highway, are laid out for a shopping center to be built while the homes are under construction. The Village is also expected to have its own swimming pool and playground.

In commenting on the new community, Betchel said, "The present site met all of our demands for large level acreage, is in the path of the population growth and gives easy access by public and private transportation to Eastbay business and industrial areas."

Price brackets for the five and six room homes is between \$7750 and \$9150 and each home features built-in television.

Each of the four model homes on display was constructed to illustrate a new floor plan created for use in the Village.

## High Federal Priority Sought for Drainage

High priority for a flood control program for Alameda Creek was requested by the board of the Alameda County Flood Control and Water Conservation District last Friday and Saturday in its appearance before the Federal Water Resources Policy Commission in a meeting at Berkeley.

In their report the directors of the county district stated that with the rapid increase in population has come a corresponding increase in the seriousness of the flood control and water conservation problems of the county.

### SURVEY UNDERWAY

The report went on to state that under congressional authorization, the army engineers are now conducting two investigations in the district for flood control and allied purposes. One of these is San Lorenzo Creek, which flows through the heavily populated Hayward area. The other is Alameda Creek, which drains the Livermore Valley and flows through Niles Canyon and through rich agricultural land along the southern end of San Francisco Bay.

"The control of the flood waters of these two creeks is essential to the security of the existing population, land, and improvements and to the future development of Southern Alameda County. It is therefore urged that projects for the control of these two streams receive high priority in the Federal flood control program," the directors said.

### DEPLETION OF SUPPLY

The directors went on to point out that in addition to the flood problems mentioned, this district also is confronted with serious problems of depletion and possible irreparable damage to valuable underground water resources. They stated that studies to date indicate that the solution of these problems will probably require the importation of water from a distant source. For such a project to be economically feasible, the cost of the imported water to farmers must be low enough to permit agricultural use, they concluded.

The Federal Commission consists of seven members, appointed by President Truman in January, 1950, to study and make recommendations to him on existing federal legislation and policies in the water resources field.

## DEATH CLAIMS RALPH BOLIBA

Ralph Boliba, 29, of 111 Fremont Avenue, Centerville, prominent Centerville merchant, died early Monday in the Veterans Administration Hospital in Oakland following an illness of several months.

Boliba had owned and operated the Victory Market in Centerville for more than six years. He was a veteran of World War II, having served for nearly two years in the U. S. Army. He was a member of the Vallejo Mills Post, V.F.W., of Niles.

He was the husband of Antoinette Boliba; father of Ralph and Beverly Boliba; son of Mrs. Antoinette Boliba of Decoto; brother of Mrs. Mary Ezzer, Albany, Mrs. Frances Gutierrez of Decoto, Tony and Manuel Boliba of Decoto, Joe Boliba, Niles, Raymond Boliba of Hayward, and Miss Florence Boliba of Los Angeles.

A rosary was recited at the parlors of the Chapel of the Palms in Centerville on Wednesday evening.

Funeral services were held from the parlors of the chapel at 9 a.m. Thursday, followed by a requiem mass at Holy Ghost Church, Centerville, at 9:30 a.m.

Interment was at Holy Sepulchre Cemetery, Hayward.

### NEWARK HOLY GHOST FESTIVAL JULY 8-9

The officers of S.E.S. Council No. 8 of Newark announced this week that their council will sponsor the 28th annual Holy Ghost Festival at Newark on Saturday and Sunday, July 8 and 9.

The annual affair will feature the crowning of the queen, a parade, dancing, barbecue and public auction.

## FEDERAL, COUNTY AGENCIES SURVEY ALAMEDA CREEK

The delegates of the seven community Chambers of Commerce who attended the meeting of the Washington Township Chamber of Commerce at Alvarado Wednesday evening were told that two surveys are now underway for the control and conservation of the waters of Alameda Creek.

Herbert Crowle, engineer for the Alameda County Flood Control and Water Conservation District, was a guest speaker at the meeting. He stated that in addition to the surveys being made by the district the U. S. Army Engineers are also in the process of making surveys of the 650 square miles of watershed of Alameda Creek.

Crowle said that it would probably take the district two years to complete the township survey.

He pointed out that in 1941 the army engineers recommended against a detailed survey of the Alameda Creek area but reversed their recommendation last year and authorized a survey.

### AWAIT FEDERAL RESULTS

"In view of the fact that the federal agencies are now making surveys it would be foolish for the county district to make any definite plans until it is known what the federal government may recommend," Crowle said.

He said that inasmuch as the federal survey deals with the over-flow of Alameda Creek, the county survey is being concentrated on the control of run-off waters, or storm drainage.

The refinancing of the Township Chamber for the coming year came in for a discussion and President Dallas Paul appointed a finance committee composed of Judge E. A. Quaresma, Peter Juhl and Paul Gygas.

The Chamber voted that a protest of the inadequate ambulance service in the township be forwarded to the Board of Supervisors with the request that they allot \$350 per month for the operation of an ambulance in this area.

Paul, who formerly operated an ambulance out of Centerville, reported that private ambulance companies he had contacted about operating in this vicinity had stated that the monthly \$350 flat rate from the county would be the minimum that they would consider.

### BACK DECOTO CHAMBER

The delegates from the Alvarado Chamber of Commerce expressed concern over the amount of debris that has collected in the channel of Alameda Creek and let-

# AMBULANCE DELAY SCORED BY CHAMBER

Protest of inadequate ambulance service in Washington Township was made Tuesday at the Niles Chamber of Commerce meeting at the International Kitchen.

Dr. T. C. Wilson stated that when Robert Archer of Oakland was critically injured in a motorcycle-auto accident near his home June 21, an ambulance did not arrive until at least an hour after the accident.

Dr. Wilson stated that tow cars, the Niles Fire Department, the sheriff's patrol car and the highway patrol all arrived long before an ambulance.

It was pointed out at Tuesday's meeting that the county board of supervisors has the responsibility for ambulance service in highway accidents. Presently, ambulance service for Washington Township is available only from

Hayward. Assurance has been given by the supervisors, however, that when the contemplated county building is completed between Niles and Centerville, an ambulance manned by deputy sheriffs will be maintained.

While the Farallon Islands are a part of San Francisco, no city official may set foot on them without permission from the lighthouse superintendent.

# J. S. COSTA, PIONEER DAIRYMAN, DIES

Joseph Silveira Costa, 83, Irvington, pioneer Washington Township dairyman, died in a San Francisco hospital Monday and was given final rites at Hayward Thursday.

He was a native of the Azore Islands but had been a dairyman in Southern Alameda County for more than 60 years. He first located near Hayward and moved to Irvington in 1913, locating his

ranch on the Irvington-Warm Springs highway.

He was the husband of the late Adelaide Costa and the father of Mrs. Joaquin C. Lopes, Mrs. Mary Reynolds, both of Piedmont, Joseph S. Costa Jr. of Irvington; and the grandfather of three.

He was a member of the I.D.E.S. Lodge No. 88 of Hayward, the U.P.E.C. No. 41, Ashland Council of San Lorenzo, the A.P.P.B.,

Filia Eden No. 2 of Hayward, and was active in dairymen's associations.

Services were held from the parlors of the Sorensen Brothers Mortuary, followed by a requiem mass at St. Joseph's Church, Mission San Jose.

Interment was at Holy Sepulchre Mausoleum.

# JULY 16 IS CENTERVILLE DAY AT OLD HEARST RANCH

The Centerville Chamber of Commerce at its meeting Wednesday voted to accept the invitation of the Old Hearst Ranch near Pleasanton to make Sunday, July 16, Centerville Day at the dude ranch.

The Centervillites will have breakfast at the ranch and participate in the morning radio show.

## Sparks from the Steel Mill

Clyde Ellis and Gene Teach, ace chemists for Pacific States Steel, had a glorious day at Capitola fishing off a garbage barge. Chumming is illegal in this state; however the law says nothing about garbage dumping. Since the stench enhanced the waters to numerous schools of fish, including ling cod, rock cod, ocean trout, and smelt, the two chemists did splendidly—exhibiting 30 pounds of fish—most of which were smelt, that no doubt you have never smelt a smelt like those smelt smelt. The boys returned joyously exclaiming that they never had a more joyous day together.

New automobiles that have been purchased lately are a 50 Mercury owned by Louis Margaretich and a 50 Hudson by Al Smith of the rolling mill.

"Found" a new strander for the 12-inch mill. The name is Bud Thomas, whose title is works manager over the American Forge and Pacific States Steel Corp. He was seen repeating hot steel with a fine suit of clothes. Next time Curley Barks needs a strander, he can always count on Bud.

Joe Svoboda has gone up to the north fork of the Mukolonne

River in his new 26-foot cruiser. He says he is just going to lay around and do a little fishing.

Chet Gellerman's wife, Lottie, and their two youngest children went to Fredricksburg, Texas, to visit her father for a month; so Chet is taking care of the two oldest.

Buford Barks' mother-in-law and family are visiting here from Malden, Missouri, and will stay in California for about six weeks. Barks will be installed as president of Local 3367 on July 7.

R. L. Ratcliff has returned to work after a two weeks' vacation visiting relatives and friends in Ardmore, Oklahoma.

Charles Boyer of the machine shop, a Shriner, journeyed to Los Angeles for one week to attend the Shriners' convention. He says they had an Electrical Pageant which was put on by the motion picture industry at a cost of approximately one million dollars. The parade lasted from 5 to 6 hours.

Passco defeated Kleines on the night of June 23 by a score of 1 to 0. The game went eight innings, being a pitcher's duel between V. Vargas and H. Avilla, each pitcher allowing two hits. Outstanding player for the night for Passco was R. Vizcarro who drove in the winning run. The game kept the spectators at a tense stage throughout the entire game. Passco celebrated at Kleines following the game.

Passco defeated the Westvaco softball team by a score of 9 to 5 on June 26. Winning pitcher was H. Avilla, and the losing pitcher M. Neves. Passco collected 7 hits, Westvaco 5. Outstanding hitter for Passco was R. Secombe, and for Westvaco Neves and Dutra. R. Villescaz pitched the last inning for the steel mill. F. Rebejio has been appointed field captain for the season and through his brilliant playing and coaching, the Passco team has won the last three games. Passco suffered the loss of their outstanding catcher, Art Martin, who suffered a serious finger injury. He will be out for an indefinite period.

The Pacific States Steel girls' bowling team was short two girls last week due to vacations. They lost two games and won one.

## SPORTS

### FAVORITES DUMPED BY CELLAR CLUBS IN SOFTBALL PLAY

League play in the Washington Township Softball Association grew more razzle-dazzle during the past week with cellar clubs knocking off the league leaders in a fashion that has provided spectators some of the greatest games ever seen on the local diamond.

Last Thursday evening the impudent Pacific States Steelers, who have shown little respect for past years pennant winners in play this season, blanked Kleines 1 to 0 in a pitchers' duel, to knock the Kleines aggregation out of first place.

The same evening a rejuvenated Fricks team scored its first victory of the season by knocking YMI out of the undefeated column in a 4 to 3 thriller.

Friday evening L & V broke into the winners column for the first time by handing Kraftite its second loss of the season in a hard fought 8 to 7 game. Central Chevrolet had little difficulty in dumping Westvaco 5 to 1.

When play resumed this week on Monday evening the Niles Steelers rolled over the Westvaco club 9 to 5 and Fricks added their second win by outscoring American Forge 8 to 5.

Tuesday evening the L & V lads fooled everyone but themselves in trouncing Wedgewood 11 to 3 and Kleines got back into stride by defeating Chevrolet 6 to 1.

The Chevrolet squeaked through to a 2 to 1 victory over the Steelers on Wednesday evening and YMI got a one-point decision over American Forge, 6 to 5.

The first half of league play will end following the double-header tonight (Friday) which will see Westvaco meeting Central Chevrolet and YMI pitted against Wedgewood.

### IRVINGTON LOSES TO SAN MATEO 11-13

The Irvington Merchants lost a slug-fest Sunday afternoon to the Monisteri Sport Shop club of San Mateo 13 to 11 on the peninsula diamond.

The Irvington lads went into the eighth inning trailing 12 to 4 and combined three hits for three runs in the eighth and staged a 9th inning rally that fell short of pulling the game from the fire. The local club was finally retired after crowding four runs across the plate and putting the tying run on second.

The San Mateo club used more timber than that which they wielded at the plate. They showed uncanny ability at spotting their hits in the trees some 240 feet from the plate in right field.

Manager Frank Mayer used three pitchers in the game, starting Johnny Garcia, who was relieved in the first inning by Sabe Elizarrey. Elizarrey was pulled in the fourth and replaced by Tony Dutra, who finished the affair.

Chalking up extra base hits for the Irvingtonites were Fernandez, Marshall, Rose and Alameda.

### NILES BOYS SEEK BOXING QUARTERS

A group of approximately 30 young Niles boys are house-hunting this week.

They are the young boxing enthusiasts being trained by Joe Hudson and they are seeking quarters to be converted into a miniature gymnasium.

"Many local residents and businessmen have offered to help us financially in renting quarters and others have already donated equipment," Hudson said yesterday.

He said that indoor workout quarters are badly needed. He stated that the young leather-punchers, now working out in his backyard, need quarters where they can cool off after their bouts without the danger of catching colds.

He asked that anyone having a barn or any other type of building that they would be willing to allow the boys to use, please contact him or this newspaper at their earliest convenience.

**Thousands of families are now "2-FORD FAMILIES"**

THEY LIKE THE ECONOMY OF OWNING TWO FORDS

Judged "Fashion Car" of 1950

Over 250,000 families (with the number growing every day) have discovered the convenience and independence of 2-Ford living. Dad can golf while Mom shops. No need to sit home while Junior's at the prom. Good-bye buses. Good-bye trolleys. They've found, too, that Fords are a sound investment—low in first cost, low in maintenance and high in resale value. They like the economy of owning two Fords.

We say "fine car" for very good reasons... reasons like Ford's amazingly quiet V-8 and "Six" engines... the smooth "Mid Ship" Ride in a body of "Life-guard" steel... the 35% easier acting King-Size Brakes... the roomy Sofa-Wide seats... plus the dozens of other features which won thousands more friends for Ford last year.

# ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is ...

Union leaders' answer to Board is ..

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

### Board Says Demands Unjustified

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

**YES!**  
**NO!**

### FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE

The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:

Chicago Great Western Railway Company  
Chicago, Rock Island & Pacific Railroad Company  
The Denver & Rio Grande Western Railroad Company  
Great Northern Railway Company  
The Western Pacific Railroad Company

It is time to put an end to such un-American tactics!

The Answer to a Raw Attempt At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!"

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

## Thinking Things Over . . .

By VIVIAN BATMAN

By JESSIE COLE

Dear Vivian:

Thanks for letting me fill in while you are away. Wouldn't have missed it for anything.

The chance to root through a vacationing society editor's desk is something that should happen to every woman who has ever toyed with the idea of mixing a spot of career with the job of maintaining a happy home.

Thanks, too, for all the fascinating leads you left. It was stimulating to find that they'd all been squeezed dry for last week's issue.

I haven't disturbed a thing on your desk although when I took off the top layer the publisher made his usual profane comment about your filing system. Don't worry, though. Being a home-maker myself I could well understand that what looked like confusion confounded to the nth degree was merely evidence of that housewife's instinct to save things that might come in handy for something sometime. Still I can't understand why you're saving that doughnut or that egg that became addled and mixed up with the typewriter. You'll be glad to know that I found that book "Getting Things Done" about which the librarian has been so excited for the past two months. Those ashtrays you thought you lost on moving day came to light at the bottom of the pile.

I think everything's going to be all right in this week's issue. If people get difficult about the original twists given to the spelling of their names you just have to point to my lack of experience and oversupply of imagination.

Call me up after you've read the paper and let me know if we're still friends.

Your Pal, Jessie

### Orbie Robertson Home From Boys' State

Orbie Robertson, son of the Gus Robertsons of Irvington, came home on Saturday after a full, exciting, and rewarding week at Boys' State. Orbie was chosen by the Township American Legion Post to represent the township at the annual Boys' State at which 725 delegates organized model city, county and state governments, elected their own legislators and executives, and for one week lived a practical lesson in government.

The boys were quartered at the Fair Grounds but most of their legislative sessions were held in the Capitol chambers.

Orbie becomes most enthusiastic in speaking of his experiences. "It's been a wonderful week, and I guess I learned more about what makes the wheels go around than I've learned in a lifetime otherwise. In addition to all that, and many of the fellows expressed the same idea, the experience increases your self-confidence; you feel that while you still have a lot to learn, you can go about it with a healthy respect for the other fellow's viewpoint and with a solid foundation of practical experience on which to plan your life as a useful citizen."

Orbie will carry on the idea next year as Student Body president at Washington High.

The week was not devoted entirely to serious study. Orbie worked with the glee club and at the vaudeville show brought down the house with a pantomime accompaniment to "Piano Roll Blues."

### Relatives Visiting The Sid Westrays
